Matteo Di Mauro

Senior Pricing Analyst

✉ matteo.dm@live.com ☎ +44 7562831075 ⊚ London, United Kingdom

Summary

Data scientist with 3+ years of experience in applied machine learning and analytics within large multinational organizations. Actively involved in business steering, translating model outputs into insights used for strategic planning, performance monitoring and stakeholder decision support. Experienced in Python and SQL pipelines, feature engineering and experimentation.

Education

Politecnico di Milano
Big Data Science

II Level Master Degree
Milano • Oct, 2023 - Sept, 2025

Sapienza
Data Science

Master of Science
Rome • Dec, 2020 - Sept, 2025

University of Catania
Computer Science

Bachelor of Science
Catania • Oct, 2017 - Nov, 2020

Experience

Allianz UK
Senior Pricing Analyst - Applied Analytics

London
Jan, 2026 - Present

- Took ownership of machine learning models used to support operational decisions within the pricing workflow.
- Worked on gradient-boosting models, focusing on feature selection, validation, and performance stability in production.
- Worked on Python and SQL pipelines to clean, transform, and prepare data for modeling, dealing with real-world data quality issues.

Allianz SE
Pricing Analyst - Applied Data Scientist

Rome
Oct, 2023 - Dec, 2025

- Developed predictive models (GLM, GBM) used to support internal decision-making, from exploratory analysis to model validation.
- Designed experimentation and scenario-testing frameworks for evaluation.
- Contributed to global standards across teams.
- Selected for the Allianz Talent Program.
